

Build a Business When You Build Our Robots

Hello future instructors:

Thank you for your interest in becoming one of our instructors at Build A Robot Workshop. Working in tech with us doesn't require a degree or prior experience. Build A Robot Workshop believes everyone can succeed in the tech field regardless of age, race, gender or financial status. All you need here is a desire for adventure, to learn and to succeed.

Our mission is to inspire a sense of wonder for technology in everyone. We will achieve our goal by teaching coding, wiring, and other technical skills through fun and memorable experiences.

Becoming an instructor with us is like starting your own business. We will give you all the necessary training, software and hardware to be independent. You will be able to choose your own hours, earn sales revenue, get free advertising, free business listings, and gain experience in the tech and education industry.

Possibilities:

- Teaching/Hosting workshop events
- Host meetups for new and current members
- Selling robot kits
- Designing new kits
- Teaching and developing new instructors/schools
- Sell online or in storefronts
- Running local events

Benefits:

- Use of the Build A Robot Workshop name and brand assets
- Build A Robot Workshop kits can only be purchased through our independent instructors
- Advertising your business and camps on our site
- Monthly dinners, meetings or webcasts
- Support network of other independent instructors and corporate instructors
- Software to successfully run your business
- Custom @BuildARobotWorkshop.com email address
- Host workshops/camps at our partner locations
- Local events, expo and fair promotions

Requirements:

- Be 18+
- Legally be able to work in the USA
- Have liability insurance
- Pass background check
- Choose monthly membership package that works best for you
- Willingness to learn and to be somewhat outgoing

Please note that your possibilities can be one or more of the possibilities depending on which job package you choose. You do not have to do all of them; however, it is encouraged that you do to increase your development in yourself and business.

We will have core introductions with veteran instructors to aid and develop new instructors. On top of that there will be local meetups for one on one training and weekly/monthly live chats (webcasts) online to share new ideas and discuss common problems and solutions. Additionally, we will provide you with business management training to maximize your efficiency and income.

We look forward to hearing back from you!

Thank you,

Paul Qua
